There is an amendment election coming up in Alabama next Tuesday. The vote is expected to be very light but for those who will take the time to vote, here is a short description on each of the eleven amendments and my reasons for voting yes or no on each one. Number I authorizes the Legislature provide promotion, research, marketing, etc. in connection with sale of swine and swine products. VOTE YES this is a check off program and only applies to hog farmers who wish to

tion. It creates the Judicial Department of the State and prescribes powers, duties and functions of all courts. It includes icers. It is explained at length on page 3 of this newspaper. VOTE YES, there has been a lot of mis-information out about this bill but I believe it is a good bill

Number 3 is a local tax levy for the town of Hamilton in Marion County and the people effected must approve. VOTE YES, and give these people the right to decide for themselves.

Number 4 pertains to Marion and Lamar Counties and allows them to form public corporations for the development of the Buttahatchee River. It does not require a local election but since it is not for the expenditure of money or tax levys, I still

Number 5 authorizes each municipality in Cleburne County to sell bonds and collect a special property tax for industrial so I will cast a BIG NO on number 5.

Number 6 authorizes the legislature to consolidate county offices in Morgan County. I don't know if this is the wishes of the people in Morgan County or not so if I do vote on this Number 7 pertains to Cleburne County. It authorizes the legis-

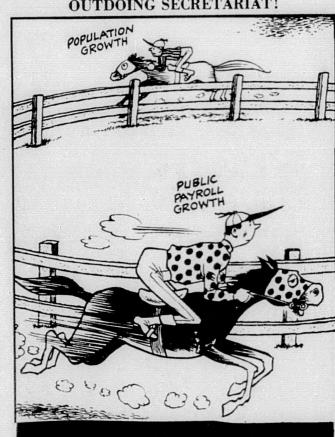

lature to fix and regulate the cost and charges of courts and to fix the pay of county officers. It is a good idea and does require approval of the people in Cluburne County. VOTE YES, again to allow the people in Cleburne to decide for themselves. It also requires local approval so I will again VOTE YES. It has the endorsement of the newspapers in the county and the

Number 9 pertains to Tuscaloosa County. It authorizes the levy of a special property tax for parks and recreation. This bill again nires the approval of the voters in the affected county and deserves a YES VOTE.

Number 10 creates a Madison County Judicial Commission for the purpose of nominating to the governor a person to fill any behind this but I smell a skunk and since the affected voters have no option, I cast a big fat NO on number ten.

Number II is the last on the list and concerns only Calhoun County. It authorizes a school tax and requires approval of the people who will pay the tax and again I believe these people deserve the right to decide for themselves. VOTE YES on

Nine of the eleven proposals shouldn't even be on the ballot in any county except the affected areas. Our constitution needs revision on this matter and until we get it revised voters statewide will be voting on issues that concern only one of the OUTDOING SECRETARIAT!
